-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 2, 11-27, and 36-52 are pending. Claims 1 and 26 have been amended in this communication filed 07/12/05 entered as Response After Non-Final Action and Request for Extension of Time and claims 51 and 52 were added in the communication filed 04/28/04 entered as Response After Non-Final Action.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
- I. Claims 1, 2, 11-27, and 36-50, drawn to configuring a self-service financial transaction device, classified in class 705, subclass 44.
 - II. Claims 51 and 52, drawn to receiving a session request from a user using a transaction card, selectively associating the session request with pre-stored parameters, and displaying the standardized customer-specific interactive interface, classified in class 705, subclass 35.
3. Inventions Group I and Group II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because Group I, claims 1, 2, 11-27, and 36-50 have receiving a session request from a customer, selectively associating the session request with customer parameters, displaying the standardized customer-specific interactive interface, receiving a financial request from

the customer, implementing the financial request from the customer, updating the customer parameters in the global communications network, the self-service financial transaction device communicating with a rule broker component, and communicating with a language man component. The subcombination Group II, claims 51 and 52 have separate utility such as receiving a session request from a user using a transaction card at an interactive interface, selectively associating the session request with pre-stored parameters, and displaying the standardized customer-specific interactive interface.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Applicants' are advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicants' are reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim

remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37CFR 1.17 (I).
